THE #1 ANDROID APPLICATION FOR GUARD TOUR REPORTING, ACCOUNTABILITY AND MANAGEMENT

GuardTrax is pleased to offer the GuardTrax Android application for guard tour reporting, accountability, management and video! This app can be used on Android phones (4.0 or greater) and provides security officers with all of the features and benefits of the GuardTrax Classic OEM device that is recognized as the #1 solution for officer reporting, accountability and management. The new app will now allow officers to participate in the capture and sharing of photos and video. As a result, officers become a part of the blended security solution involving cameras, security NOCs, VMS, etc.

GUARDTRAX FEATURES

• REALTIME GPS TRACKING

WEB PORTAL FEATURES

GuardTrax provides real-time officer accountability through its cloud based web portal. Managers and supervisors can connect with and have real-time data on the activities of their officers in the field. GuardTrax provides this data through mapping and reporting functionality which is stored within the GuardTrax archives for 1 year.

Key features include:

- ALARM SYSTEM MONITORING
- ADVANCED NOTIFICATIONS AND WARNINGS
- PERSONAL PANIC ALARMS
- ACTIVITY HISTORY PLAYBACK
- ALL INDIVIDUAL USER ACCESS IS CONTROLLED BY GROUP PERMISSIONS
- PERSONNEL TRACKING
- GEOFENCE ALERTS
- CUSTOM ALERT REPORTS
- DETAILED ACTIVITY REPORTS
- DAILY ACTIVITY REPORTS*

VIDEO MANAGEMENT & ANALYTICS

The modern security officer must be fully integrated with fixed and PTZ cameras; VMS platforms and security NOCs. The GuardTrax Android application is the essential link for your officer to play a key role in the blended security solution. This also allows contract guard companies to potentially generate RMR. Email gtsales@guardtrax.com to find out how.

CUSTOMIZED WEB PORTAL

The GuardTrax web portal is the most powerful and easy to use officer accountability solutions in the industry.

- **No** software to install
- **Branding** to match your company image
- A **full-featured** platform for a small monthly fee
